STUDENT EDITION

TEACHER EDITION

Spark children's joy of experiencing God's Word with familiar Bible truths. This series provides multiple opportunities for students to choose to follow Jesus and develop a personal relationship with Him. Students will learn how to apply biblical truth to their lives as they memorize Scripture and learn about Christlike character. Compatible with any translation, this series can tie in to your chapel program and provide cross-curricular connections.

The visual aids are beautifully illustrated and include a paraphrased version of the Bible truth on the back that is easy to understand and short enough to keep little ones' attention. The teacher edition is easy to use and each lesson includes suggestions for worship time, listening time, and follow-up activities that are developmentally appropriate. There are more options than I ever use, but I love having so many from which to choose. I also appreciate having a weekly parent letter to send home with my preschoolers so that families know what is being covered and can reinforce the Bible truths at home. Thank you, PDP, for designing a program that is purposeful!
